

# Green @ cycle

recycling collection service

We have finally got around to sorting all the books we have. Many have gone to the big pulping mill in the sky (well, Deal Party), but we have kept a few. So that no-one has to risk life & limb coming to look at the warehouse, I have put all the titles on a spreadsheet – catalogued (very loosely). Have a look at the attached spreadsheet and if anything takes your fancy (at R2.00 per book), do let us know and we will pull it out for you to collect.

Louise and I took our kids to spend 67 minutes stuffing Eco-bricks at the Penguin Crèche in Walmer. Construction is due to in January 2015

Siya loves sporting some of the things we find in the recycling. A future career in modelling perhaps?

The Jam makers are going great guns at this time of year and small to medium jars are in huge demand, so please remember to pop them into your recycling – ask your friends to pass them on too.

Also remember to give us your **ink cartridges** with your recycling.

And your **flower pots/trays**.

And check out what the Eco-Brick Exchange was up to in Cape Town – truly inspiring and thanks to all of you have been stuffing!
