recycling collection service

Look at our new fold-up shopping bags. There are some nice, bright colours to choose from; easy to find in the depths of handbags and the like. The bags are made from off-cuts of parachute material (manufactured by a local supplier) - so they are super-strong, and they are sewn by an indigent, whose only possession is a sewing machine. So help us to help him to help our environment... for just R35 each.

As some customers have already discovered, we have now upped sticks and moved ... all of about 100 metres. For those customers who pop in to buy jars, pay accounts, drop off papers for shredding or just say hello, we are now at no.10 in the industrial park - we look forward to welcoming you there. All contact details remain the same.

For any catering customers, there is a pig farmer who will happily take your food scraps and give them to his hungry swine. You can contact him on 079 517 6744 or puttergill@ecweb.co.za

Finally - a reminder that we are **OPEN** on **Public Holidays** (with the exception of the Christmas period), and all collections take place as normal, although the office is usually closed.
