

As the strangest of years draws to a close, here is everything you need to know for the next months.

As always, we will be closing for the Christmas week. We will be collecting on Thursday 24th December (please ensure bags are out on time as we will aim to finish as early as possible), and then will resume collections on Monday 4th January. **NO COLLECTIONS FROM FRIDAY 25TH DECEMBER TO FRIDAY 1ST JANUARY, INCLUSIVE.**

Any monthly customers affected by the closed period will have been contacted by email – please let me know if you did not see it. Please remember to let us know if you will be away at all – it really helps with our logistics in this very busy period.

As usual, if anyone would like to contribute to the staff Christmas Box (and there is no obligation at all), please EFT and use your customer number & Christmas Box as the reference.

Instead of braving the shops, remember our *Off-Chute* and Produce bags make great stocking fillers and really are bags for life. Made in association with Missionvale Care Centre, delivered to your door still just R40 (or R150 for 4) for Off-Chute bags, and R30 (R100 for 4) for Produce bags.

We still struggle with a lot of non-recyclable waste coming in. Please do not assume that something is recyclable;

rather check the website or ask us. Handling the non-recyclables takes up a chunk of manhours and costs real money to dispose of.

Conscious Christmas Tips: Be inventive with your wrapping; avoid foil-like and glittery wrap that cannot be recycled. Try to buy gifts that will last - not something that will give the wow factor when unwrapped, but end up being discarded a few weeks later.

Our two-yearly price increase will be effective from 1st February 2021 (details to follow in a separate mail).

Wishing you all a blessed holiday - a time to reconnect with family & friends and reflect on what has certainly been a challenging year. All the very best for 2021.
