

# Green@cycle

recycling collection service

As we approach our 13th anniversary; looking back at an old newsletter from 2017, I see that our staff contingent has gone from 16 to 26 members AND we are keeping an additional 100,000+kgs out of landfill each year. Yay!

We continue to wage war against the amount of waste that comes in with the recycling and our staff are tagging bags which have more than a couple of non-recyclable items. We will then send you an email with a photo to show you where you are going wrong. Please make every effort to ensure you are not sending in the wrong items; it makes a huge difference to our operation.

Please remember you can join our 'Can I Recycle This?' WhatsApp group using the link. This is to check on items you are unsure about

(having checked on the website and the group logo picture). Click on the link:

<https://chat.whatsapp.com/2KDYragkDvB5b16suRVtOG>

Are you POPI compliant? We offer three options to securely dispose of your confidential documents. Shredding charges start at R50 – click here to see what is on offer:

<https://www.greencycle.co.za/shredding.html>

A reminder to customers old and new – we operate as normal on **public holidays** (with the exception of Christmas). Please do let us know if you will be away for any of them.

Don't clog up your drains with **used cooking oil**. Pop it into a screw top bottle and we will send it off to the bio diesel guys.

We are delighted to be passing your Eco-Bricks on to a project in Motherwell. Please do send yours in – ensuring they are properly packed and 2L or 2.25L bottles only.

And last but not least - our 'last you a lifetime' *Off-Chute* Bags are still just R40 each, R150 for 4. Lots of green, red and blue, but the other colours are in short supply, and we might not be able to get new ones for a while.
